

900866B

Stako CNC profile cutting machine type Variprofile (2010) with oxy fuel / gas cutting process for 3D cutting of profiles / h-beams like HEB 400-450, HEM 400, UNP 360, IPE 3620, maximum beam HEB 600.

Dimension:

Length: +/- 50.000 mm

Width: +/- 4.000 mm

Machine:

Length: +/- 4.000 mm

Width: +/- 4.000 mm

Effective work length: +/- 1.500 mm

Effective work height: +/- 370 mm

Maximum work width: +/- 600 mm

Cutting height: +/- 1.000 mm

- 3D CNC controller
- rollway / pusher of +/- 23.500 mm, effective rollway +/- 21.500 mm
- scrap conveyor
- exhausting / filter unit

options:

- Software Stakonest

Transport, installation, training, service&aftersales direct from origin manufacturer!
warranty to be discussed
